TEACHING METHODOLOGY
The duration of the course is 60 hours. The students are asked during the lessons to do written exercises with corrections, reading and listening of texts in order to check comprehension, followed by discussion concerning various topics in which they are tested to express and share their own opinion. The final 15 hours of the course will be dedicated to reading, writing and discussing language concerning scientific geological papers.

EXAMS
At the end of the course, students are given the opportunity to do the final exam required by the faculty. The exam consists of four parts: part 1 and 2 are use of the language (grammar), part 3 is a reading comprehension, and part 4 is a listening comprehension.

Suggested texts:
- English grammar in use, Raymond Murphy, CUP.
- Photocopies of past FCE exams.
- Students could consult any grammar or course book at a B2 Level.
